COMPLETE WILDFLOWER & FERN GARDENS, PLANTED IN THE CORRECT SOIL

Now you can have a lovely Wildflower Garden full of the beautiful Wild Flowers from forests, meadows, or streamsides, whichever you wish. These Wildflower Gardens are made of a fast rotting wood, filled with the kind of soil the Native flowers grow in naturally, all you do is make a hole the size of the Garden where you want it to grow, set the Garden into this hole and cover up around it, and the Wildflower Garden is ready to grow for you. Available in two sizes, 8"x 16"x 4" deep, for \$4.89, or the large size 12"x 24" x 4" deep for \$6.98, shipped by Express, not prepaid. In ordering, state whether you want the shade loving flowers, or those for sun (Fern gardens for shady locations only and the size you want. The medium sized Gardens contain at least 9, all different kinds, 2 of each, or 18 plants, and the large size contain at least 2 of each kind of 14 different wild flowers, the Fern gardens contain 9 different kinds of ferns in the medium sized Garden, and at least 10 much larger ferns in the large size Gardens. You may also get these Gardens planted with your own choice of wild flowers listed in these lists or in our regular catalogs (for which we charge extra) so if you are interested, please write us, telling us the plant or plants you want, and we will tell you the amount you must pay extra, if any.
